Documentation for Front End of Final Project
COMP 426
Abby Bunta, IsaBella Sztyber

April 21st, 2022
- Zoom meeting for a few hours, brainstorming
- Images from brainstorm

April 28th, 2022
- Started with the front end.
- Figured out how to get everything running on Mac
    o Must go into cd client, and cd server directly to install
- Started to connect API to front end
    o Fetch countries (creating for each loop)
- Made logo

April 29th, 2022
- Fixing up API problems
    o Put on localhost page.
    o Connect with netlify.
    o See what UI/UX looks like as you update
    o Publish website
- Zoom in with group member to explain code
- Look at login page set up

April 30th, 2022:
- Beautifying and Debugging
- Practically finished everything

☐ add ~~header~~ navbar ~40 min
☐ add links to countries
☐ do my ~~profile~~ countries
  ↳ Update page

Bugs I have found
  · Language bug
  · Update page is iffy lol

LEFT TO DO:

- ? Click country => data for it
  appear
- ✓ change formatting of
  home page (CSS/HTML)
- ✓ user profile page
  ↳ login
  ↳ countries (they can
  travel to based on
  given input parameters
  appear)
- ✓ Zoom w/ Elliot to run
  through functionality (for video)
